

### **Aims of the course:**

- Students who have not achieved a grade 4 or better will be working towards achieving grade 4.

### **What are lessons like?**

- The content from GCSE is covered in a year. The lessons are taught by experienced teachers and there are lots of opportunities to work through past and practice papers.

### **What are exams like?**

- The first opportunity to re-sit is in November (results are published in January).
- There is a further opportunity in June (results are published in August).

### **Recommended prior learning /entry requirements:**

- Any student who has not attained a grade 4 or higher in Maths will need to be working towards the GCSE.
- Students who have a grade 3 at GCSE or Functional skills Level 2 pass will study resit GCSE maths.

### **Recommended additional reading:**

- A Collins GCSE revision guide is recommended and available to buy from the maths department.

### **Where can this course lead to?**

- GCSE Maths is often required for university courses and apprenticeships.

### **Why study Resit GCSE Maths at St Mary's College Sixth Form?**

- We are a supportive and knowledgeable department with a strong track record. We offer lots of opportunities to students to enjoy and succeed at maths.
